

Electric Crepe Maker

Model CRP - CRP2

The Machine comes with a stainless steel body and cast iron cooking plate/s with a sanded multi-line slide-proof surface.

The machine's standard equipment consists of:

- ◆ Thermostat from 0°C to 300°C for temperature adjustment of each individual plate;
- ◆ Main power switch;
- ◆ Armored resistances and height adjustable feet.

Shape and materials which are used make the cleaning and maintenance extremely easy.
