

Food Processor (Cutter)

Model Ideal 5L

< *single speed* >

Top quality commercial vertical Food Processor (Cutter), created to satisfy the most exacting needs of professional users. Although extremely easy to operate, it can do all the work normally requested every day in a kitchen, including pureeing, mixing, grinding, kneading, chopping and so on and all this in the maximum safety, guaranteed by magnetic switches and by motor-brake ensuring compliance with the most rigorous safety standards.

- Housing and tub in stainless steel;
- Lid in non-toxic pressed plastic;
- Low-voltage electronic panel with controls for start and stop;
- Single phase.

Model Pratic 3

< *adjustable speed* >

Top quality commercial Food Processor (Cutter) for all the work normally requested every day in a kitchen, including pureeing, mixing, grinding, chopping, homogenizing, kneading and so on and all this in the maximum safety.

- Bowl at a certain distance from the motor to avoid the heating of the products;
- Adjustable speed form 900 to 2200 rpm with 9 different positions;
- Equipped with low voltage electronic panel, motor-brake, safety micro-switch on the lid;
- Housing and tub in stainless steel, lid in non-tonic pressed plastic;
- Single phase.
