

SPINEL Espresso Pod Machine

The Spinel range of Espresso Pod Machines offers the latest Italian technology in coffee making, excellent quality and simple to use operation to make real "Café" style drinks.

Espresso Pod Machine

Pinocchio

Design, colours, pod closing system, heat-exchanger: these are a few of the innovations that makes Pinocchio unique within the panorama of espresso pod machines.

Easy to use, just place a coffee pod in the filter holder. With the semi automatic dosage of coffee, just flick on the switch to start and then off to stop at your required level.

Features:

◆ **Milk Frother** (additional feature, not shown on the image)
Activate the milk frother which sucks up the milk and froths to a dense creamy texture. The milk frother lets you prepare an excellent cappuccino, even without being an experienced barista!

◆ **Self-Cleaning Hydraulic System**
Robust and reliable thanks to its *Patented Self-Cleaning Hydraulic System*, all inconveniences related to lime scale have been removed from the coffee infusion group.

Pinocchio is ideal for small offices and connoisseurs at home that want high quality, low maintenance and an easy to use machine.

Optional: Stainless steel finish

Technical Information

Pinocchio

Voltage:	230V
Power:	- coffee group: 600W - steam group: 1100W
Water tank:	3L
Dimensions	200x330x330 (WxDxH mm)
Weight:	12kg
Colour:	black, green, yellow or blue with s/s front finish
Temperature control:	fixed thermostat at 98°C
