

GIULIA

CUSTOMIZATION AND PERFORMANCE FOR EVERY VENUE

GIULIA is Officine Brugnetti's professional heat exchanger group coffee machine, available in different versions (Standard, Wood, Led, Compact) and highly customizable. Ideal for those seeking reliable performance and a unique design.

ICON OF VERSATILITY AND STYLE :

GIULIA is designed to adapt to the needs of every venue, offering four different versions and a wide range of customization options.

The Standard version offers reliable performance and an essential design.

The Wood version adds a touch of elegance with wood side panels.

The Led version illuminates the venue with LED side panels.

The Compact version, with reduced dimensions, is perfect for limited spaces and offers the option of both mains water supply and tank supply.

TAILORED CUSTOMIZATION:

GIULIA is highly customizable, allowing you to create a unique machine that reflects the style of the venue.

Customization options include:

- Group protection mask
- Customizable rear panel with logo
- Matte black painted front panel
- Joystick and filter holder knobs with wooden handle
- Customer-requested colors

TECHNOLOGY AND FUNCTIONALITY:

▪ **Heat Exchanger Groups:**

Heat exchanger groups for optimal thermal stability and consistent extraction.

▪ **Volumetric Programming:**

4 programmable volumetric dosages for precise extraction control.

▪ **Manual Delivery:**

Manual coffee delivery button for greater flexibility.

▪ **Cool Touch Steam Wands:**

2 stainless steel cool-touch steam wands with joystick taps for safe and precise milk frothing.

▪ **Programmable Water Delivery:**

Programmable water delivery wand for optimal hot water management.

▪ **Built-in Volumetric Pump:**

Built-in volumetric pump for constant pressure.

▪ **Automatic Leveler:**

Automatic boiler leveler for optimal water level at all times.

▪ **Temperature Control:**

Temperature control via pressure switch for reliable thermal stability.
